AI Shelf Monitoring

Auto Camera Discovery

Zone Intelligence

No Cloud AI Cost

The Problem

What keeps retail store owners awake at night

Retail Theft & Shrinkage	Global retail shrinkage is \$112B/year. Small stores lose 1.5–3% of revenue to theft, mostly undetected by existing 'record-only' CCTV.
Dumb CCTV Systems	90% of retail cameras only record. Nobody watches the footage until after the incident. By then, the product — and the thief — are gone.
Expensive Enterprise Solutions	AI security from Axis, Genetec, Verkada costs \$500–\$2,000/camera/year. Totally out of reach for SME retailers, pharmacies, convenience stores.
No Inventory Visibility	Store managers don't know when shelves go empty, when products are misplaced, or when high-value items are moved without a sale.
Complex Setup	Existing AI systems require specialist integrators, NVR replacements, dedicated servers. SMEs simply can't afford the downtime or the bill.

The Solution

Vantag — Turn any existing camera into an AI analyst

What is Vantag?

Vantag is a **plug-in AI layer** that sits on top of your existing CCTV cameras. A small Windows/Linux agent runs on any store PC, connects to your cameras over the local network, and streams real-time AI analysis to your cloud dashboard — with **zero per-frame cloud AI cost**.

How it works:

- Install the Edge Agent on any Windows store PC (2 min setup)
- Agent auto-discovers Hikvision, Dahua, CP Plus cameras on your LAN
- Draw zones on your camera view in the web dashboard
- AI starts detecting theft, movement, footfall in real time
- Incidents push to your phone & dashboard instantly

Works with cameras you already own. No hardware replacement needed.

Key Features

- AI Shelf Monitoring — detects pick-up, removal, theft
- Auto Camera Discovery — scans LAN, no IP needed
- Zone Intrusion Alerts — custom zones, instant push alerts
- Footfall Analytics — people counting, heat maps
- 30-Day Incident History with video thumbnail evidence
- Multi-Store Dashboard — manage all branches in one view
- Mobile Notifications — iOS & Android push alerts
- No Cloud AI Cost — AI runs locally on your store PC

Market Opportunity

A massive, underserved SME retail market

\$112B

Global retail shrinkage/year

65M+

SME retail stores in India alone

90%

Cameras with NO AI — record only

<\$10

Vantag cost per store per month

3–5x

ROI in the first month

India	INR 999–4,999/mo	65M+ SME stores. Pharmacies, kirana, malls, hospitals, hostels, post offices. Massive untapped market with near-zero existing AI security penetration.
Malaysia	MYR 79–299/mo	500,000+ SME retail outlets. Growing CCTV adoption post-COVID. jagajaga.my targets Bahasa Malaysia-speaking store owners.
Singapore	SGD 29–99/mo	Highly tech-savvy market. Strong SME density in HDB shophouses, food courts, mini-marts. retail-vantag.com positions as premium AI solution.

NET MONTHLY BENEFIT	INR 1,100–3,500	Payback period	< 2 weeks	Payback period	< 2 weeks
Payback period	< 2 weeks				

Key message to customers: "Vantag pays for itself in 2 weeks. After that, every prevented theft is pure profit."

How It Works

From sign-up to live AI monitoring in under 30 minutes

1

Register Online

Customer visits retail-vantag.com, selects a plan, and registers in 2 minutes. Receives login credentials instantly.

2

Download Edge Agent

Download the Vantag Windows Agent (free download, ~80MB). Install on any store PC — even an old laptop works.

3

Auto-Scan Cameras

Click 'Auto-Scan' in the dashboard. The agent finds all cameras on the store LAN automatically — Hikvision, Dahua, CP Plus, and more.

4

Draw Your Zones

In the web dashboard, drag a box over your shelf, entrance, or cash counter. Name it (e.g. 'Shelf A – Chocolates'). Done.

5

Go Live — Get Alerts

AI starts monitoring in real time. Any detected movement, removal, or intrusion sends a push notification to your phone within seconds.

Compatible camera brands: Hikvision · Dahua · CP Plus · TP-Link · Reolink · Uniview · Any RTSP/ONVIF camera

Traction & Roadmap

Where we are and where we are going

Current Status

- Platform fully built and deployed on live VPS (Hostinger, Singapore)
- 3 domains live: retail-vantag.com · retailnazar.com · jagajaga.my
- Edge Agent for Windows complete — auto camera discovery working
- AI shelf monitoring, zone detection, footfall analytics functional
- Multi-language support: EN, HI, TA, TE, KN, ML, MR, GU, BN, PA, MS
- Razorpay payment integration (India & Singapore) live
- AI Smart Support Chat (GPT-4o) deployed on all 3 sites

Active Dealer Programme

- Dealer onboarding fee: INR 5,000 / MYR 200 / SGD 80 (refundable)
- 15% dealer commission on all subscriptions
- Marketing kit, training guide, and demo account provided

Near-Term Roadmap

- Q3 2026** Android & iOS mobile app launch
- Q3 2026** Linux Edge Agent for Raspberry Pi
- Q3 2026** Stripe payment for Malaysia / SGD
- Q4 2026** NVR/DVR direct integration (no PC needed)
- Q4 2026** Facial recognition optional add-on
- Q1 2027** POS integration — link sales to theft events
- Q1 2027** Franchise / chain management dashboard
- Q2 2027** White-label OEM for security integrators
