- The Subscriber shall not rely solely on the Service as the exclusive means of security for their premises;
- The accuracy of AI detections is dependent on factors including, but not limited to, camera placement, image quality, lighting conditions, network bandwidth, and camera resolution. The Company shall not be liable for reduced accuracy arising from suboptimal camera conditions;

- The Service is not a substitute for legal evidence collection systems, and the Company makes no representation that footage or Alerts generated by the Platform will be admissible as evidence in any legal proceeding.

AI DISCLAIMER: Retail Nazar is an AI-assisted surveillance tool designed to augment — not replace — human judgment and conventional security measures. Detection accuracy varies based on environmental conditions. The Company expressly disclaims any warranty of 100% detection accuracy or completeness.
