

● YOU ALREADY OWN THE HARDWARE. WE UNLOCK THE INTELLIGENCE.

Your CCTV is smarter than you think. Unlock its **AI** — **free**.

■ One install · Any IP camera · 11 AI models · Alerts in seconds

The cameras above your aisles are already watching — they just aren't understanding. Vantag adds an AI brain to the CCTV you already own, running 11 detection models locally on a phone or PC. Shoplifting caught before the exit. Falls flagged in real time. Tampering, queues and restricted zones — all monitored, no new hardware, no cloud fees, no cost to try.

WHY VANTAG — THE UNFAIR ADVANTAGE

STOPS THEFT BEFORE THE EXIT

Product-sweep & concealment AI fires a CRITICAL alert the moment a thief moves — not on the CCTV replay tomorrow.

USES YOUR EXISTING CAMERAS

Works with Hikvision, Dahua, Reolink, and any generic IP cam. Zero rip-and-replace. Zero proprietary hardware tax.

RUNS ON THE EDGE — NO CLOUD BILL

All 11 models run locally on an Android phone, a PC, or the Vantag Edge Box. No per-event fees. No video leaves your premises.

ALERTS WHERE YOUR TEAM ALREADY IS

Push, SMS, WhatsApp, Slack, Teams, Webhook. One-tap remote door lock over MQTT from anywhere.

LIVE IN 30 MINUTES, NOT 30 DAYS

Register → auto-discover cameras → go live. No integrator. No site survey. No 6-figure project.

PRICED FOR REAL SHOPS

Free to start. Paid plans from S\$19/mo when you're ready to scale. Cancel anytime — no lock-in.

VARIANT B · UNLOCK-CCTV

DETECTION MODELS · ALL 11 RUN IN PARALLEL, ON DEVICE

CRITICAL SHOPLIFTING Concealment & product-sweep behaviour detected before the exit.	CRITICAL PRODUCT SWEEP Hand sweeps across 3+ shelf items in seconds — instant alert.	CRITICAL RESTRICTED ZONE Custom polygons for back-office / staff areas with schedules.
CRITICAL WATCHLIST FACE Match faces vs. your known-offender list the moment they enter.	SAFETY FALL DETECTION Pose-based person-down alert for instant medical response.	HIGH CAMERA TAMPER Detects spray, blocking, or angle changes — never go blind.
HIGH INVENTORY MOVEMENT Sudden stock drop with no staff present = bulk-theft signal.	HIGH CROWD SURGE Density spikes flagged for crowd safety & peak-hour control.	MEDIUM QUEUE LENGTH Counts checkout customers, estimates wait time, alerts overflow.
MEDIUM ANOMALOUS DWELL Loitering in high-value aisles beyond your time threshold.	LOW EMPTY SHELF Detects empty zones so staff restock before you lose the sale.	ALL 11. ALWAYS ON. Zero blind spots →
